

MAPA PROFESSIONAL GLOVES : STORAGE INSTRUCTIONS

- Keep the gloves in their boxes protected from direct sunlight, artificial light and humidity.
- Store the gloves at temperatures between 5°C and 35°C.
- Natural rubber gloves : keep away from heat sources and electric equipment producing ozone.
- Keep gloves in their polybag until they are consumed.

You will not see an obsolescence date on the gloves. But for information, storage under these conditions will provide minimum shelf life as follows:

- disposable gloves: 2 years.
- Reusable gloves (Natural rubber gloves or gloves containing natural rubber, polychloroprene, nitrile, PVC, butyl, fluoroelastomer gloves, PU): 5 years
